

GroUp Academy

AI Agents, Gigs & Course Infrastructure

Master reference document — please edit inline and return

Purpose: This is a complete inventory of every AI agent (live or planned), the gig-economy infrastructure, and the course-building infrastructure. Each section has dedicated edit lines so you can mark up changes — adjust pricing, add missing items, redefine skills/tools, or kill what isn't needed. Send back when done.

Part 1 — Admin / Operator AI Agents

These agents live inside /dashboard and /dashboard/chat. They are operator-facing (admin / talent_exec / super_admin) and either analyse the platform, draft outreach, or manage operations. All chat agents are reachable from the unified WhatsApp-style messenger at /dashboard/chat.

1.1 Master Registry — 32 Admin Agents

Key	Name	Role / What it does	Edge function
business-analyst	Nia (Business Analyst)	Platform metrics, revenue, KPI breakdowns	admin-analyst
report-builder	Report Builder	Weekly digests, charts, leadership one-pagers	admin-report-builder
talent-aisha	Aisha (Talent Success)	Talent pool insights, matching, onboarding telemetry	admin-aisha-analyst
talent-ai-general	AI General (Talent)	Cross-platform concierge for talent side	admin-ai-general-analyst
talent-outreach	Talent Outreach Exec	Personal outreach drafts to candidates (mailto + Unipile WhatsApp)	admin-talent-outreach + messaging-send
companies-riya	Riya (Companies Analyst)	Employer pipeline & hiring activity	admin-riya-analyst
companies-ai-general	AI General (Companies)	Concierge for companies stakeholder	admin-company-ai-general-analyst
companies-outreach	Company Outreach Exec	B2B outreach drafts (mailto only — protects sender reputation)	admin-company-outreach
agent-manager	Agent Manager	Health of all agents, runs, credits earned	admin-agent-manager
ir-fpa	FP&A Agent	Fundraising: MRR, ARR, runway, narrative	admin-ir-fpa-analyst
ir-relationship-exec	IR Relationship Exec	Investor & VIP outreach (mailto)	admin-ir-relationship-exec

Key	Name	Role / What it does	Edge function
inst-outreach	Institutions Outreach Exec	B2B drafts to universities & partner orgs (mailto)	admin-inst-outreach
inst-analyst	Organizations Analyst	Read-only analytics on institutions, clubs, reps & events	admin-inst-analyst
hr-chro	CHRO	Org strategy, headcount planning, attrition	admin-hr-chro
hr-onboarding	HR Admin / Onboarding	Onboarding checklists, document collection	admin-hr-onboarding
hr-recruiter	Internal Recruiter	Internal hiring drafts and candidate outreach	admin-hr-recruiter
gtm-country	Country GTM Agent	Per-country GTM analyst & outreach drafts	admin-gtm-country
ugc-video	Free Video Agent	Drafts titles, descriptions, captions for free videos	admin-ugc-video
ugc-blog	Blog Post Agent	Outlines and full long-form posts	admin-ugc-blog
ugc-feed	Feed Post Agent	Short social-style in-app feed posts	admin-ugc-feed
ugc-events	Competition & Event Agent	Event/competition copy, prize structures, briefs	admin-ugc-events
ugc-outreach	UGC Outreach Agent	Reach out to creators & content partners (mailto)	admin-ugc-outreach
jobs-outreach	Jobs Outreach Agent	B2B emails to hiring managers (mailto)	admin-jobs-outreach
learn-dean	Academies & Schools Dean	Instructor onboarding, school readiness, dean analytics	admin-learn-dean
gig-ops	Gig Ops Manager	Approvals, pricing, payout, worker health	admin-gig-ops
gig-category	Gig Category Agent	Briefs and pricing across creative/dev/data/content	admin-gig-design
abroad-counselor	Abroad Counselor	Study-plans, university shortlisting, scholarships	admin-abroad-counselor
abroad-ielts	IELTS Coach	Module strategy and band-target plans	admin-abroad-ielts
abroad-outreach	Abroad Outreach Exec	University & partner outreach (mailto)	admin-abroad-outreach
mkt-strategist	Marketing Strategist	Cross-channel campaigns and community pushes	admin-mkt-strategist
fin-controller	Finance Controller	MRR/ARR, transactions, gross margin, payout health	admin-fin-controller
fin-credits-ops	Credits Ops	Credit issuance, refunds, reconciliation drafts	admin-fin-credits-ops

1.2 Skills, Tools & Constraints

Agent	Skills / Tools	Constraints
Nia (Business Analyst)	read_query: transactions, revenue, talents, services	Read-only DB; gemini-2.5-flash
Report Builder	Build reports, charts, summaries	DB read; markdown/chart drafting
Aisha (Talent Success)	Talent search, role/profession match, country breakdowns	Reads talents, aisha_conversations
AI General (Talent)	Career-services activity, engagement summaries	Read-only analytics
Talent Outreach Exec	Draft re-engagement, candidate outreach; Unipile + Telegram channels	messaging_channels, talent contacts
Riya (Companies Analyst)	Top companies, industry split, active job posts	Reads companies, riya_conversations
AI General (Companies)	B2B engagement summaries	Read-only analytics
Company Outreach Exec	Drafts to HR, hiring managers; logs to company_outreach_log	mailto: only
Agent Manager	agents_list, runs, credits, tools_registry, channels_registry	Admin role required
FP&A Agent	Financial roll-ups, investor narrative drafting	gemini-2.5-pro; reads fin tables
IR Relationship Exec	Monthly updates, warm-intro, VC follow-ups; logs to ir_outreach_log	mailto only
Institutions Outreach Exec	Partnership pitches, re-engagement	mailto only
Organizations Analyst	Active institutions, reps onboarded, upcoming events	Read-only
CHRO	Headcount queries, hiring plan suggestions	Read internal HR tables
HR Admin / Onboarding	Generate checklists, list pending tasks	hr_onboarding_tasks
Internal Recruiter	JD drafts, recruiter reach-outs	mailto only
Country GTM Agent	Country performance, partner outreach, supply analysis	gtm_clusters, talent geo
Free Video Agent	Topic ideation, video copy	Drafting only
Blog Post Agent	Outline + draft long-form	Drafting only
Feed Post Agent	Multi-post drafts	Drafting only
Competition & Event Agent	Plan events, prize tiers	Drafting only
UGC Outreach Agent	Creator outreach drafts	mailto only

Agent	Skills / Tools	Constraints
Jobs Outreach Agent	Hiring outreach, employer re-engagement	mailto only
Academies & Schools Dean	Readiness queries, dean shortlists	schools, instructors, readiness view
Gig Ops Manager	Pending submissions, pricing tiers	gig_submissions, workers
Gig Category Agent	Brief drafts, deliverable suggestions	Drafting only
Abroad Counselor	Shortlist universities, scholarships search	study_abroad_* tables
IELTS Coach	Prep schedules, module tips	Drafting
Abroad Outreach Exec	Partnership pitches, re-engagement	mailto only
Marketing Strategist	Campaign plans, community pushes	Drafting + read mkt tables
Finance Controller	Read-only financial roll-ups	Read-only finance
Credits Ops	Refund notes, reconciliation drafts	credits_ledger reads

1.3 Edits & Notes for Admin Agents

Use the lines below to add / remove / re-scope agents.

Part 2 — Talent-facing AI Agents

Surfaced in /app/agents (Agent Marketplace), /app/jobs?tab=agents, and individual service routes. Pricing follows the fractional per-response credit model (numeric(12,1)). 1 credit = ₪2 BDT.

2.1 Career & Services Agents

Key	Name	What it does	Cost	Notes
ai-general	AI General	Free-forever platform concierge — routes user to features, agents, courses	0 credits (free)	Inline markdown links to jobs/learning/agents
career-consultant	Career Consultant	Career planning, job search strategy, career change	1.0+ /response	Career frameworks; refers to assessments
cv-coach	CV Coach	CV review, ATS optimisation, cover letters	1.0+ /response	CV upload/parse; ATS rules
interview-coach	Interview Coach	Mock practice, STAR method, confidence	1.0+ /response	Mock interview launcher
salary-negotiator	Salary Negotiator	Negotiation tactics, market rates, benefits	1.0+ /response	Reads salary_analyses; first analysis free
ielts-tutor	IELTS Tutor	Speaking, writing, test strategies	1.0+ /response	IELTS module library
skill-advisor	Skill Advisor	Skill gaps, learning paths, industry trends	1.0+ /response	Recommends courses/tracks
study-abroad-advisor	Study Abroad Advisor	University selection, visa, scholarships, country comparison	1.0+ /response	+ 6 country-specific advisors (USA, UK, Canada, Australia, Germany, Malaysia)
mental-wellness-coach	Mental Wellness Coach	Stress management, mindfulness, balance, burnout	1.0+ /response	Conversational only
job-hunter	Job Hunter	Find & shortlist jobs across the board	Per-message + delivery_credit_cost	Reads jobs, applications
application-helper	Application Helper	Apply-with-AI: tailors CV + cover letter to a job	Per-message + delivery_credit_cost	Job + CV context

2.2 Edits & Notes for Talent Agents

Part 3 — Gro10x (B2B / Companies) Agents

Live inside the Gro10x B2B surface. Help companies hire, sell, post, manage gigs, and run ops.

Key	Name	What it does
concierge	Atlas (Gro10x Concierge)	Routes B2B user to right agent
recruiter	Recruiter	Job drafts, postings, screening
sourcer	Sourcer	Find candidates from talent network
outreach	Outreach Writer	Personalised candidate / lead emails
growth	Growth Agent	Post on company feed, draft campaigns
lead_hunter	Lead Hunter	Find B2B prospects matching ICP
crm	CRM Agent	Track conversations, follow-ups
sales	Sales Agent	Pitch offerings, manage pipeline
gig_finder	Gig Finder	Source freelancers fast
briefing	Briefing Agent	Turn ideas into clear gig briefs
billing	Billing Agent	Credits, invoices, top-ups
ops	Ops Agent	Update company page, hours, logo
calendar	Calendar Agent	Schedule calls, syncs

3.1 Edits & Notes for B2B Agents

Part 4 — Cross-cutting Messaging & Tools Infrastructure

- Channels (per-agent): WhatsApp via Unipile (hosted-auth QR), Telegram via Lovable connector, Email (transactional via notify.groupacademy.online), in-app chat.
- Each agent can have its own channel binding (agent_channel_bindings) and tool binding (agent_tool_bindings).
- Inbound webhook auto-creates lightweight talent records for unknown senders.
- Auto-reply via gemini-2.5-flash with human-takeover toggle in /dashboard/messaging.
- B2B outreach is mailto: only (protects sender reputation).
- Tool registry: agent_tools (handler_kind: connector | skill | edge_fn) — 18 connectors + 4 baseline skills seeded.

Edits / additions to messaging infra:

Part 5 — Gig Infrastructure

Three parallel gig systems unified at /app/gigs (talent) and Gig Economy admin group (#12). Gig Hub v3 collapsed the talent surface to two tabs: Earn and My Work.

5.1 The three systems

System	Table	Purpose
Quick Tasks	gigs / gig_submissions	Micro-actions, instant credits (cv_upload, job_posting, job_sharing, content_creation, course_resell).
Course Projects	course_projects + course_project_subtasks	A course = a project. Talent claims, subtasks unlock credits. Replaces legacy content_gigs as the primary academy build pipeline.
Marketplace Projects	marketplace_gigs / marketplace_bids / marketplace_contracts / marketplace_deliverables	Employer-posted projects, talents bid, winners deliver.

5.2 Active Quick Gigs — Current Pricing

Category	Title	Credit reward
content_creation	Create a community poll	4
content_creation	Create a Post	10
content_creation	Submit a salary data point	2
content_creation	Translate a resource (BN ↔ EN)	10
content_creation	Upload a free educational video	15
content_creation	Write & publish a feed post	5
content_creation	Write a course review	3
course_resell	Recommend a Course	25
cv_upload	Help a Friend Get Discovered	15
job_posting	Share a Job Lead	20
job_posting	Submit a verified company lead	8
job_sharing	Refer a friend who completes onboarding	10
job_sharing	Spread the Word	5

Edit: change credit_reward, deactivate, or add new quick gigs below.

5.3 Quality scoring on approval

- approve_content_gig(p_gig_id, p_admin_notes, p_quality_score) — quality 1–5 multiplies the credit reward:
- $1 = 0.6\times \cdot 2 = 0.8\times \cdot 3 = 1.0\times (\text{default}) \cdot 4 = 1.1\times \cdot 5 = 1.25\times$
- Stale claim auto-release after 7 days (release_stale_content_gigs).

Edit quality multipliers if needed:

Part 6 — Course Infrastructure (Course-as-Project)

Each course in the academy is also a Course Project — a bundle of subtasks claimable by a Content Lead. Subtask completion rolls up into project progress; the project auto-flips to approved when all subtasks are done.

6.1 Existing `course_subtask_kind` enum

Kind (enum)	What it is	Status	Per module?
cover	Course cover image / banner	Existing	—
intro_video	Course intro / welcome video	Existing	—
module_slides	Slide deck for a module	Existing	Per module
module_video	Recorded video for a module	Existing	Per module
module_quiz	Module quiz (questions + answers)	Existing	Per module
reading	Reading material / article	Existing	Optional
caption	Subtitles / captions for a video	Existing	Optional
translation	Translate module to BN / EN / other	Existing	Optional
exercise	Hands-on exercise / assignment	Existing	Optional
flashcards	Flashcard set	Existing	Optional
other	Catch-all	Existing	—

Default `credit_reward` per subtask is set at project-generation time (currently inserted manually). Per the user's note, several subtask kinds appear to be missing — see 6.2.

6.2 Suggested **MISSING** subtask kinds — please confirm

Suggested kind	What it would cover	Status
module_audio	Audio narration / podcast version	MISSING — please confirm
case_study	Real-world case study write-up	MISSING — please confirm
downloadable_template	Template / worksheet / checklist	MISSING — please confirm
instructor_bio	Instructor profile copy + photo	MISSING — please confirm
course_description_seo	SEO meta + landing copy	MISSING — please confirm
thumbnail_set	Module thumbnails (per video)	MISSING — please confirm
assessment_final	Final course assessment / capstone	MISSING — please confirm
certificate_metadata	Certificate template + metadata	MISSING — please confirm

Suggested kind	What it would cover	Status
promo_clip	30–60s promo clip for marketing	MISSING — please confirm
resource_links	Curated external resource list	MISSING — please confirm

Edit: confirm which to add, rename, or drop. We'll wire them into the course_subtask_kind enum + auto-generation.

6.3 Per-subtask credit pricing — your call

Currently credit_reward per subtask is set ad-hoc. Below is a starter table — set the credit cost you want for each subtask kind. We'll bake this into a config table (e.g. course_subtask_pricing) and use it as the default when projects are auto-generated.

Kind	Description	Credits (1 cr = ₮2)	Equivalent BDT
cover	Course cover image / banner	___ credits	___ ₮
intro_video	Course intro / welcome video	___ credits	___ ₮
module_slides	Slide deck for a module	___ credits	___ ₮
module_video	Recorded video for a module	___ credits	___ ₮
module_quiz	Module quiz (questions + answers)	___ credits	___ ₮
reading	Reading material / article	___ credits	___ ₮
caption	Subtitles / captions for a video	___ credits	___ ₮
translation	Translate module to BN / EN / other	___ credits	___ ₮
exercise	Hands-on exercise / assignment	___ credits	___ ₮
flashcards	Flashcard set	___ credits	___ ₮
other	Catch-all	___ credits	___ ₮
module_audio	Audio narration / podcast version	___ credits	___ ₮
case_study	Real-world case study write-up	___ credits	___ ₮
downloadable_template	Template / worksheet / checklist	___ credits	___ ₮
instructor_bio	Instructor profile copy + photo	___ credits	___ ₮
course_description_seo	SEO meta + landing copy	___ credits	___ ₮
thumbnail_set	Module thumbnails (per video)	___ credits	___ ₮
assessment_final	Final course assessment / capstone	___ credits	___ ₮
certificate_metadata	Certificate template + metadata	___ credits	___ ₮
promo_clip	30–60s promo clip for marketing	___ credits	___ ₮
resource_links	Curated external resource list	___ credits	___ ₮

Edit / add new subtask types and your preferred prices:

6.4 Course Project lifecycle

- Status enum: open → claimed → in_progress → submitted → approved → paid (or abandoned).
- claim_course_project(p_project_id) atomically locks open project to caller's talent_id, sets a 14-day default deadline.
- recompute_course_project_progress(p_project_id) rolls subtask status into project progress_percent and auto-approves when all subtasks done.
- Subtask status enum: open → in_progress → in_review → approved (or rework / rejected).
- Universal uploader (GigUploader.tsx) writes to private bucket gig-submissions/{user_id}/{folder}/{ts-name}; signed URLs at review time.

Edits to lifecycle / deadlines / quality gates:

6.5 Academy structure (context)

- 4 Academies: Executive · Freelancing · Entrepreneurship · Influencing.
- Each academy contains specialised Schools (e.g. AI & Strategy, Creative Services, Startup & Venture, Social Media).
- Standardised model per program: 14 courses / 62 modules.
- Every program has a global AI instructor persona (INSEAD, Wharton, etc.).
- Course pricing: auto from price (1 cr = ₹2) or manual override via credit_cost. Career tracks have an entry credit_cost on profession_categories.

Part 7 — Open questions for you

Please answer inline; we'll act on these once you return the doc.

Which admin agents should we launch FIRST vs park for later?

Any agents to merge or rename?

Should country-specific Study Abroad agents (USA/UK/Canada/AU/DE/MY) get their own pricing?

Confirm the missing course subtask kinds in §6.2.

Lock in per-subtask credit pricing in §6.3.

Should quality multipliers (§5.3) change for course projects vs quick gigs?

Any new gig categories beyond the current 5 (cv_upload / job_posting / job_sharing / content_creation / course_resell)?

WhatsApp/Telegram channels — which agents (besides Talent Exec BD) get them next?
